Russian – *native speaker*

## Summary

I develop and optimize layouts for adaptive sites, also maintain existing projects. I always make sure to check the results of my work for cross-browser compatibility, download speed and validity.

My list of completed projects includes 100+ sites performed at various levels of complexity.

## Skill Highlights

- |                                |                                   |
|--------------------------------|-----------------------------------|
| ✓ React.js (beginner)          | ✓ Git                             |
| ✓ JavaScript (ES6, TypeScript) | ✓ Webpack/Gulp                    |
| ✓ Html (Pug)                   | ✓ Figma, Avocode, Adobe Photoshop |
| ✓ Css (Sass/Scss)              |                                   |
